Wrapping up an amazing trip to Singapore 🇸🇬

Exploring a new city, reconnecting with old friends, and making many new ones!

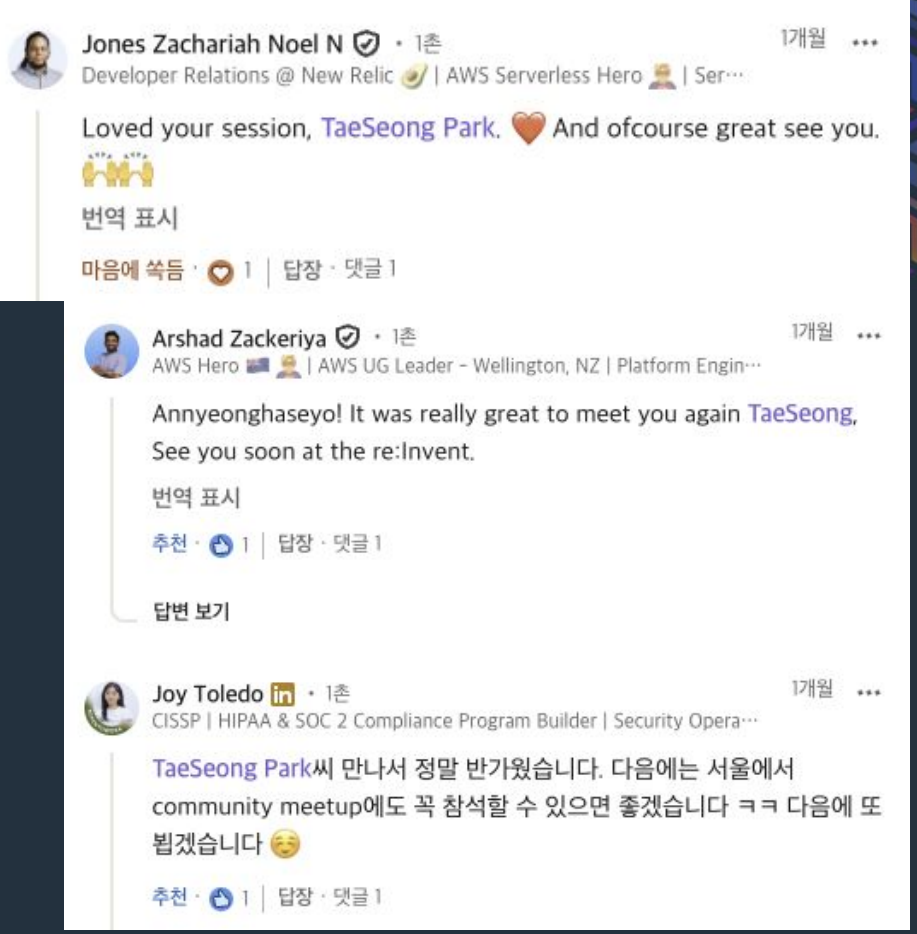

Thank you Lyn Teoh for the invitation. So happy to join this Community Day with friends from across GCR UserGroups and our Community Managers Yanglin Liu .

I especially enjoyed TaeSeong Park 's sharing about community — a great reminder that community is not just about showing up, but about building connections and taking that first step to share.

Taking these inspirations back to our community. 💛

See you next time — maybe in Shenzhen Community Day, at re:Invent, or in Japan! 👋
